Art Unit: 1637

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 55 and 56 are rejected under 35 U.S.C. 103(a) as being unpatentable over Guo et al., in view of Schena et al. (1996).

This rejection was made in the previous Office action mailed 10/02/02 over claim 9, which is essentially the same as pending claims 55 and 56.

2. With respect to the above rejection, the arguments of the response filed 12/04/03 have been fully considered, but are not found persuasive. While the arguments are found persuasive regarding claims 42-54 and 57 which require a particular support, it is again noted that independent claim 55 has no such requirement for said support.

Applicant is advised that if claim 55 were amended in step (d) to recite "immobilizing the

Art Unit: 1637

nucleic acids obtained on at least one support according to claim 42", then claims 55 and 56 would be allowable.

3. Claims 42-54 and 57 are allowable.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
